Number Order

Preparing the Center

1. Laminate and cut out the scarecrow on page 31, the center challenge and tags on page 33, and the number cards and crows on pages 35–45.
2. Glue the scarecrow onto the front of the bag.
3. Glue the center challenge onto the back of the bag.
4. Reproduce the form on page 47 for students.
5. Place the sets of number cards and crows into envelopes. Write the set color on each envelope. Place the envelopes and forms in the bag.
6. Tie the tags to the handle of the bag.

Using the Center

In a small group

A student chooses one number card. Each student counts and shows crows to match the number.

Independently

Note: Each student uses one set of cards, so three students can use this center at the same time.

The student lays out the number cards in order from 0 to 5. Next, the student places crows beside the number cards to show each number. Then the student colors crows on the record form to match the numbers.

Bag Centers

Bag centers are easily stored. Fold the bag flat. Write the name of the center on the bottom of the bag. Stack the bag centers in a convenient storage place.

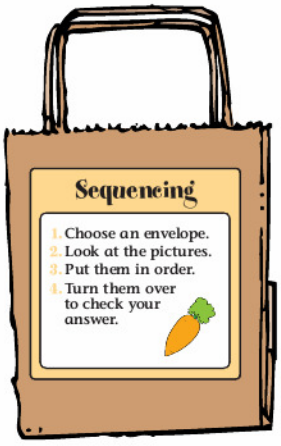
Making a Bag Center

Materials

- medium-sized gift bag with handles
- 10″ (25.5 cm) piece of string, ribbon, or raffia
- scissors
- marking pens
- glue

Laminate and cut out the center character, the center challenge, center manipulatives, and the tags.

Glue the character onto the front of the bag.



Glue the center challenge onto the back of the bag.

Place manipulatives and record forms in the bag.

Tie ribbon around one of the handles. Tie the tag to the ribbon end.
