

Puzzle a Hundred

Preparing the Center

1. Laminate and cut out the front illustration on page 53, the center challenge and label on page 55, and the number puzzle mats and number cards on pages 57–67.
2. Tape the illustration onto the front of the bag.
3. Tape the center challenge onto the back of the bag and the label onto the bottom of the bag.
4. Reproduce the student record form on page 69 for students.
5. Place the number mats and the number cards in the bag.

Using the Center

Small-Group Practice

Each student has a number mat. The number cards remain in the bag. Draw a number card from the bag. Show the number. Students look at their cards and claim the card if it fills a blank on their mat. Repeat. Students try to complete their mats by filling in each blank. Finally, they color in all the numbers that filled the blanks on the record form.

Independent Practice

The student chooses a number mat. The student chooses number cards and checks to see if the cards fill a blank on the mat. When every blank is filled, the student compares the number puzzle to the record form. The student colors in the squares on the record form that were missing.

Self-Checking Key

Students compare their completed number puzzle mats to the numbers on the record form.

Name _____

Puzzle a Hundred

Circle the number puzzle you desire.

Color in the squares that were missing on your puzzle.

Skills:
Number Order,
Number Recognition

Puzzle a Hundred

1. Take a number puzzle mat.
2. Choose a number card. Does the number fill a blank in your puzzle?
3. Keep choosing numbers until every blank is filled.
4. Color the numbers on the record form.
5. Check. Do the numbers on the record form match the numbers on your puzzle?

Making a Bag Center

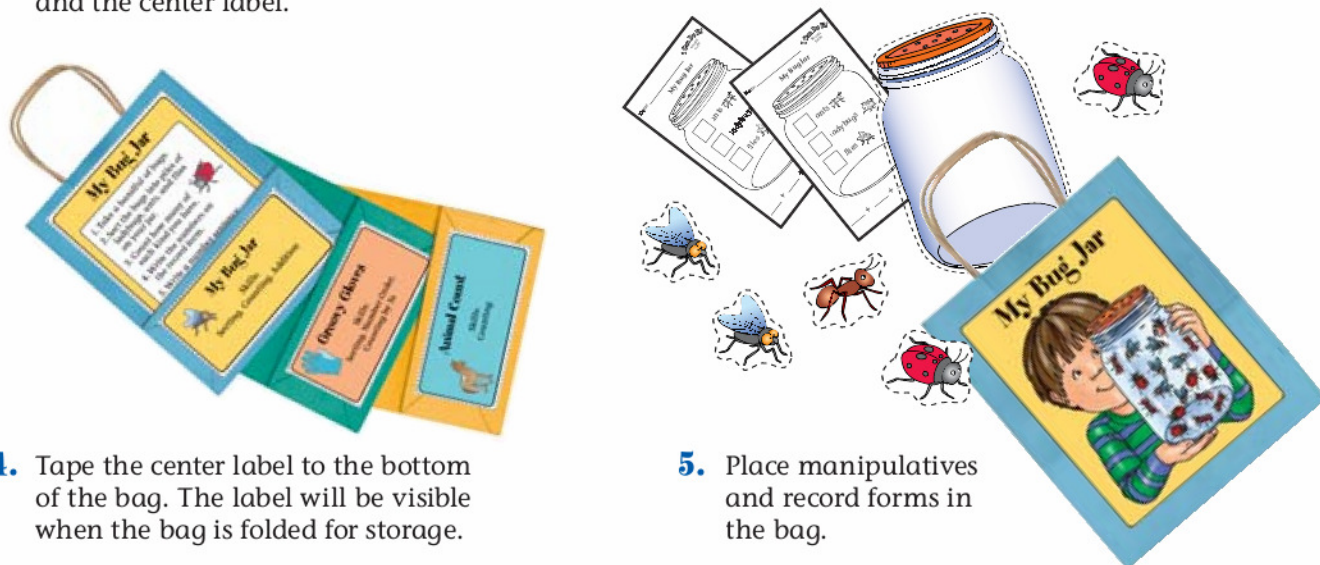

Materials

- medium-size gift bag with handles
- scissors
- double-stick tape
- self-closing plastic bags

Steps to Follow

1. Laminate and cut out the bag front illustration, the center task, center manipulatives, and the center label.
2. Reproduce the student record form.
3. Tape the illustration onto the front of the gift bag. Tape the center task labels onto the back.

4. Tape the center label to the bottom of the bag. The label will be visible when the bag is folded for storage.
5. Place manipulatives and record forms in the bag.
